

TAKES HEAT WITHOUT CONING
...A Raybestos Solution

TAKES HEAT WITHOUT CONING
ZPAK[™]

Raybestos developed the Z Pak[™]* single-sided clutch system to solve the problem of 3-4 clutch pack failure in the 4L60E. Other Z Pak solutions are coming soon. Suitable for every rebuild including four-wheel drive, heavy duty and commercial uses, Z Pak adds torque capacity and improves cooling to increase the life and durability of the clutch pack. That's the Raybestos Solution. *Mfg. Under US Pat. 6,484,853 B1
